ACTIVITIES

I am an active student in college and have good interpersonal ability. I joined and officiated in several organizations at the faculty and university level, there are: BPMU UKDW as Head of Research and Aspiration, participant Student Creativity Program for twice, and involved in seasonal events like System Information Creative Day, FTI Camp, and SI Night. I have an interest in building or developing web applications, especially with the PHP Laravel framework and PHP language. In addition, I like to learn new things.
